

ALFETTO INTERIORS

ALFETTO INTERIORS PVT. LTD.

About Our Company

30 Years of Quality Excellence

We have a premier name in the luxury interior design sector, built on a robust foundation of 30 years of industry excellence. What sets us apart is our end-to-end capability; we are not just designers but master craftsmen.

With our own dedicated in-house factory, we maintain complete control over the manufacturing of modular kitchens, wardrobes, and doors. This vertical integration allows our expert design team to execute complex, high-end residential, commercial, and institutional projects with unmatched precision and speed.

Design Philosophy

Biophilic Living

We seamlessly integrate nature into our luxury concepts, using organic materials and flowing lines to create spaces that breathe and promote well-being.

Quite Luxury

Our aesthetic defines the new standard of opulence: understated, monochromatic palettes rich in texture, focusing on comfort and timeless sophistication rather than ostentation.

Turnkey Solutions

From the initial concept sketch to the final manufacturing and installation, our in-house team manages the entire lifecycle, guaranteeing a stress-free experience.

VISION AND MISSION

Vision

At Alfetto, **FURNITURE** is treated as functional art. Leveraging our in-house manufacturing capabilities, we design and fabricate bespoke furniture pieces that perfectly complement the architectural envelope of the room.

Mission

From hand-stitched leather sofas to solid wood dining tables with metal inlays, our furniture design focuses on **ergonomic comfort** and structural integrity. We blend traditional joinery techniques with **modern finishes** to create heirloom-quality pieces that anchor the space.

OUR INTERIOR CONCEPTS

Modern Luxury

We champion a "Modern Luxury" aesthetic that balances opulence with restraint. Our concepts strip away excess ornamentation to focus on the inherent beauty of premium materials, clean architectural lines, and thoughtful spatial planning.

Adaptive Living

Our designs are rooted in functionality. We create adaptive living spaces that evolve with the user's needs, blending smart-home technology with ergonomic furniture layouts to ensure that every square foot is utilized effectively.

Bespoke Curation

Every project is a unique narrative. We reject cookie-cutter solutions in favor of bespoke curation, designing custom joinery and selecting artisanal decor that reflects the distinct personality and lifestyle of the client.

Color Palette

Earthy Warmth Meets Bold Accents

Our signature color palette for the upcoming season embraces "Grounded Sophistication." We utilize a base of warm neutrals—taupe, oatmeal, and charcoal gray—to create a calming, canvas-like backdrop that enhances spatial perception.

To infuse vitality and brand identity, we strategically employ bold accents of ****Burnt Orange and Terracotta****, inspired by the Alfetto logo. This combination evokes a sense of welcoming warmth while maintaining a sharp, contemporary edge suitable for high-end interiors.

Wall Decor & Panelling

Framed Art

Textured Panels

Wall Murals

Fabric Walls

We believe that walls are the canvas of the home. Moving beyond simple paint, our wall decor solutions involve intricate fabrication including fluted wood paneling, stone veneers, and upholstered fabric walls.

These treatments add acoustic value and visual depth, transforming flat surfaces into dynamic architectural elements. Our factory precision ensures seamless installation of complex geometric patterns and integrated LED lighting channels.

ALFETTO INTERIORS PVT. LTD.

Kitchen Style

The kitchen is the heart of the modern home, and our "Gourmet Modular" style reflects this importance. We specialize in creating high-performance kitchens that blend professional-grade utility with showroom aesthetics.

Our designs feature matte-finish cabinetry, scratch-resistant countertops, and intelligent internal organizers. We favor open-plan layouts with central islands that serve as social hubs, utilizing our factory's precision machinery to deliver flawless edge-banding and soft-close mechanisms.

Bedroom Comfort

The Private Sanctuary

Our bedroom designs prioritize "Restorative Comfort." We create serene sanctuaries by layering soft textiles, ambient lighting, and acoustic dampening materials to ensure a peaceful retreat from the world.

Central to our bedroom concepts are our custom-manufactured wardrobes. We design expansive walk-in closets and sleek sliding wardrobes that maximize storage efficiency while adding a touch of glamour through tinted glass shutters and integrated sensor lighting.

Bathroom Aesthetics

Alfetto transforms the conventional bathroom into a bespoke wellness sanctuary. Our designs focus on creating an uncluttered, luxurious retreat using expansive natural stone, large format tiles, and sleek, custom-manufactured vanities.

We integrate hidden storage solutions, meticulous lighting design, and smart features like digital shower controls and radiant heated floors. Our factory precision ensures seamless installation of custom joinery and plumbing fixtures for a space defined by both aesthetic purity and enduring function.

ALFETTO INTERIORS PVT. LTD.

Office Space

For our institutional and commercial clients, we design office spaces that embody the brand's ethos and foster productivity. Our "Corporate Excellence" concept moves away from sterile cubicles to dynamic, flexible work environments.

We incorporate acoustic glass partitions for transparency and privacy, ergonomic workstations for employee health, and impressive boardrooms equipped with the latest AV technology, all manufactured and fitted by our in-house team.
